

Protect yourself and your money from **FRAUD**

Follow these simple tips to avoid becoming a victim!

1

Be suspicious of unknown callers!

Never trust caller ID. Scammers can spoof any name and phone number. When in doubt, hang up and call InterBank to verify.

2

Don't give out any personal information!

We will never ask you to provide sensitive information via phone, text, email, instant message, or social media. We verify our customers in a way that protects you. When in doubt, call us!

3

Don't take orders from callers!

Don't allow callers to tell you what to say when you go to the bank. Tell your banker the truth so we can help you prevent a fraud loss.

4

Take your time!

A legitimate banker will never pressure you to immediately decide or send money. If you are unsure or suspicious about a situation involving your bank account, contact your local branch.
